

Standard 4 Legged Desk

A  8 x Desk leg Screws	B  10 x Blum Pin Screws	C  2 x Desk Bar Screws	Note: <i>Fittings are located in the side panel and pedestal packs</i>
---	--	---	--

Instructions shown on how to build a R/H Pedestal Desk

Step 1, Connecting Legs Remove drawers and with the desk leg screws, screw thru the ped or side panel side and into the desk leg

Side Panel

Pedestal

Step 2, Blum Pins

Insert 2 in the top and 2 in the back of the side panel

Insert 4 in the top of the pedestal (2 each side) and 2 in the ped side that has the legs attached to it

Step 3, Attaching Backpanel

Attach backpanel to the back of the pedestal and side panel, tighten by turning fittings half a turn as per diagram

Step 4, Attaching Top and Bar

Finished Assembly

Lay desk support bar across the front of the desk chassis. Locate top onto the fittings in the top of the side panel and pedestal, tighten as per diagram in step 3.

With the long screws provided screw thru the desk bar and into the underside of the desk top
